PROFESSIONAL SUMMARY

Frontend Developer specialized in building high-performance and interactive web applications using React.js and modern JavaScript technologies. Experienced in state management, RESTful API integration, and performance optimization including 60 FPS 3D rendering experiences. Passionate about clean UI architecture, scalable component design, and delivering engaging user experiences.

TECHNICAL SKILLS

- Frontend: React.js, Next.js, Redux Toolkit, TypeScript, JavaScript (ES6+), Three.js, React Three Fiber, GSAP
- Styling: Tailwind CSS, SCSS, Material-UI, Responsive Design
- API Integration: RESTful APIs, Axios, Interceptors, Authentication Handling
- Tools: Git, GitHub, Postman, Formik, Yup
- Programming: C#, SQL (Foundational Knowledge)

PROJECTS

MakBook – 3D Interactive Landing Page
Tech Stack: React, Three.js, React Three Fiber, GSAP
- Built immersive 3D product landing experience with advanced scroll-triggered animations.
- Optimized 3D rendering performance maintaining consistent 60 FPS.
- Implemented responsive design ensuring cross-browser compatibility.
Live Demo: https://gsap-macbook-lovat.vercel.app/

E-Commerce Platform – Advanced API Integration
Tech Stack: React, Redux Toolkit, Axios, Tailwind CSS
- Integrated external RESTful APIs for product management and authentication.
- Implemented Axios interceptors for centralized error and token handling.
- Built dynamic forms with real-time validation using Formik and Yup.
- Managed global state using Redux Toolkit and React Hooks.

Live Demo: https://e-commarce-seven.vercel.app/

Personal Portfolio Website
Tech Stack: React.js, CSS
- Designed and developed responsive portfolio website.
- Built reusable UI components improving maintainability and scalability.
